

Container Specifications

General Purpose Containers

General purpose containers are suitable for the carriage of most types of cargo.

20' x 8' x 8'6" – General Purpose Container

Internal Dimensions	Length	5890mm
	Width	2340mm
	Height	2390mm
Door Opening	Width	2330mm
	Height	2280mm

40' x 8' x 8'6" – General Purpose Container

Internal Dimensions	Length	12040mm
	Width	2340mm
	Height	2390mm
Door Opening	Width	2330mm
	Height	2280mm

High Cube Containers

High cube containers are ideal for any light or high volume cargo as you gain an extra foot in height in relation to a 40' general purpose container.

40' x 8' x 9'6" – High Cube Container

Internal Dimensions	Length	12040mm
	Width	2340mm
	Height	2684mm
Door Opening	Width	2330mm
	Height	2585mm

Open Top Containers

Allowing cargo to be loaded from the top, it is designed for the carriage of bulky or heavy/awkward items and primarily for cargo whose height is more suitable for a general purpose container. The container doors can be removed to facilitate easier loading and they are fitted with PVC tarpauling covers and removable roof bows.

20' x 8' x 8'6" – Open Top Container

Internal Dimensions	Length	5890mm
	Width	2340mm
	Height	2390mm

Door Opening	Width	2330mm
	Height	2238mm

40' x 8' x 8'6" – Open Top Container

International Dimensions	Length	12020mm
	Width	2340mm
	Height	2332mm

Door Opening	Width	2330mm
	Height	2238mm

Flat Rack Containers

These containers are suited for the carriage of cargo that is in excess of the dimensions available in either a General Purpose or Open Top Container. Especially suitable for heavy loads or cargo that needs loading from the side.

20' x 8' x 8'6" – Flat Rack

Internal Dimensions	Length	5890mm
	Width	2240mm
	Height	2200mm

40' x 8' x 8'6" – Flat Rack

Internal Dimensions	Length	12032mm
	Width	2240mm
	Height	2034mm
