

Importing Check List

What we need to quote:

- Collection Address
- Delivery Address
- Weight and Dimensions (cube) of the shipment
- Mode of transport
- Shipping terms
- Let us know if you are registered for PVA or have your own deferment.

What needs to be on your commercial invoice/packing list

- Quantity – Cartons / Pallets
- Weight
- Commodity Codes
- Nett weights and Value per commodity code
- Origin.
- Preferential origin statement for EU shipments.

The above are the key details needed to successfully quote and customs clear an import into the UK. For goods that require additional licenses and certificates these details would also be needed for customs clearance.

Isca prides itself on being at the other end of the phone for any queries and ensuring we can offer the correct information and advice to our customers.
